

## **NOTICE TO THE PUBLIC:**

**March 21-25, 2016**

**Week of EduCode Classes**

Our Administration, Permit Technicians, Plans Examiners and Inspectors will be attending the **2016 EduCode International Seminar** during the week of **March 21 – 25, 2016.**

EduCode familiarizes staff with current and pending codes from the International Code Council Southern Nevada chapter.

The Building Department will continue to be open for business during the seminar however; staff levels will be at a reduced number for Technicians, Inspectors and Plans Examiners, so please keep this in mind.

Please note the following schedule changes for the week of EduCode:

- We will be scheduling limited Express Inspections during this time however; Same Day Inspections will only be conducted on an emergency basis.
- Regular Inspections may be delayed or a “holdover” for the next business day may occur.
- While we value our customers and will continually attempt to service them, unfortunately due to staffing levels, we will not be performing Express Plan reviews this week and Counter reviews will be closed during the lunch period.

**We value our customers and thank you for your patience and understanding.**
