

DID YOU KNOW?

The City of Las Vegas only covers PART of our metropolitan area!

Besides the *incorporated* cities of Las Vegas, North Las Vegas and Henderson, almost everywhere else in the valley is considered *unincorporated* Clark County.

Each of these cities and the unincorporated county area are **completely separate jurisdictions**, each with different rules about business licensing.

If you operate any kind of business in the **pink area** below, you'll need a business license from the city of Las Vegas. If you don't operate inside our city limits, you'll need to contact the proper authority to find out what you need to do to get a license.

To see a more detailed map of the different jurisdictions in the valley, click [here](#).

To look up which jurisdiction a specific address is in, with links to the corresponding business licensing authorities, click [here](#).
