

NOTICE TO BUSINESS OWNERS

RE: MEDICAL MARIJUANA

The City of Las Vegas is receiving an increasing number of inquiries about promotional events and special events in taverns and banquet rental facilities related to the emerging medical marijuana industry. Many of these events are being scheduled for the education and/or promotion of medical marijuana or the marijuana industry. Educational events and events that display equipment and products for use by the medical marijuana industry may be held at various businesses licensed for space rental or through a city-obtained special event permit. PLEASE BE AWARE that allowing any cannabis or marijuana on your property during any event or during normal operating conditions/hours is unlawful and such activity can subject you to being fined and/or your current business license to being suspended or revoked. **Only a city-based, licensed medical marijuana establishment may possess, display, sell or allow marijuana, or marijuana infused products on its licensed premises including drug paraphernalia as defined in [NRS 453.554](#) exclusively to State regulating authority-designated medical marijuana card holders.**

It is unlawful for any person to engage in any form of business or commerce activity involving the cultivation, processing, manufacturing, storage, sale, distribution, transportation of marijuana within the City of Las Vegas limits without an approved Medical Marijuana Establishment license and State approval under [NRS 453A](#).

Event promoters or any businesses may not allow vendors or exhibitors to smoke, ingest, display, possess, distribute, giveaway or sell any marijuana or THC products regulated under NRS 453A at any licensed business establishment or special event. The business licensee is responsible for preventing the use, smoking, ingestion, consumption, sale, or distribution of any marijuana, edible marijuana, or marijuana-infused products at the permitted event and on its premises.

Please contact Business Licensing at License@LasVegasNevada.gov, if you have questions about a proposed event or need further clarification.
