## Temporary Privilege License Request

Las Vegas Municipal Code [6.06.051](#) allows an applicant to request a temporary business license for privilege licenses. A temporary business license is issued at the discretion of the Director for a period not to exceed ninety (90) days, pending action by the City Council. If an applicant would like to apply for a temporary license the following information will be required:

- A Temporary License Request [Form PL200](#)
- The applicable (non-refundable) fee must accompany the request form:
  - Ice Cream Trucks and Reflexology - \$250.00
  - All other privilege licenses - \$500.00
- The Director must make a preliminary finding that all the principals of the business are suitable, the applicant has submitted a complete and accurate application and ALL fees including the application and licensing fees.
- Approval is solely at the Director's discretion.
- If approved, the temporary license allows the business to begin operation pending the City Council determination to extend the temporary license. Temporary licensing may be extended for a time period of two six (6) month periods beyond the initial 90-day license pending completion of the Metropolitan Police Department's investigation report.
- Temporary licenses may be suspended by the Director.
