

NOTICE OF INTENT TO APPLY TO THE U.S. ENVIRONMENTAL PROTECTION AGENCY FOR BROWNFIELD CLEAN-UP FUNDS FOR PORTIONS OF SYMPHONY PARK

The city of Las Vegas intends to apply to the U.S. Environmental Protection Agency (EPA) for funds to clean up and remediate parcels J/K and L/M of the Symphony Park Project. The site was formerly a fueling and maintenance facility of the Union Pacific Railroad and was partially remediated by the railroad. City Parkway V purchased the site in 2000 from a private investment group. The city intends to re-use the site for medical offices, retail, housing, office, parking, and public space. If you are interested in reviewing a copy of the draft EPA Grant Application with clean-up alternatives, click [here](#). If you would like more information or would like to submit comments on the document, a public information meeting will be held:

Nov. 10, 2022 from 4 to 6 p.m.
Auric@Symphony Park Community Room
250 Promenade Place, Las Vegas, NV 89101

Comments on the documents also may be submitted in writing by emailing Redevelopment Manager Tracy Reich at treich@LasVegasNevada.gov.
