Nevada Department of Taxation 1550 East College Parkway, Suite 115 Carson City, Nevada 89706

Date and Time May 21, 2018, 10:00 a.m.

The City of Las Vegas, Nevada, herewith submits the Final Budget for the Fiscal Year Ending June 30, 2019.

This budget contains two funds requiring property tax revenues totaling \$108,645,000.

The property tax rates computed herein are based on preliminary data. If the final state computed revenue limitation permits, the tax rate could be increased by an amount not to exceed legally authorized limit. If the final computation requires, the tax rate will be lowered.

The budget contains 24 governmental funds with estimated expenditures of \$1,073,670,075 and 12 proprietary funds with estimated expenses of \$406,585,257.

Copies of this budget have been filed for public record and inspection in the offices enumerated in NRS 354.596 (Local Government Budget Act).

CERTIFICATION	APPROVED BY THE GOVERNING BOARDS
IScott D. Adams	CEROLLINON.

June 25, 2018

Honorable Carolyn G. Goodman, Mayor Honorable City Council City of Las Vegas, Nevada

FINAL BUDGET MESSAGE

Dear Mayor, Council, and Citizens of Las Vegas:

I am pleased to present the Final Budget for the City of Las Vegas for fiscal year 2019. This document represents the City's proposed spending plan and has been prepared in conformance with Chapter 354 of the Nevada Revised Statutes.

There is reason to be optimistic about fiscal year 2019. The April 2018 local unemployment rate stands at 5.0%, fiscal year 2018 revenues are projected to be 2.6% higher than fiscal year 2017 actual collections, and commercial development activity has increased with several large projects in the pipeline. The Final General Fund budget is balanced, meaning proposed expenditure appropriations are expected to be fully covered by projected revenues without the use of reserves. However, over the past nine years since the technical end of the Great Recession, the City has seen a slower-than-average return to normal economic growth. While the local and national economies have improved, the City's longer term projections for its General Fund, for the five years beyond the balanced fiscal year 2019 budget, are showing that the City is facing a five-year structural budget deficit that averages about \$10 million per year. This means that the City's projected ongoing revenues are not fully able to cover its projected ongoing expenditures. This is primarily due to expenditures growing at a faster rate than revenues.

In order to balance the Final Budget and to shift more resources to areas of Council priority, I asked each department to scour its budget and provide a proposed two percent decrement. Each department reviewed their programs and services and proposed reductions. The fiscal year 2019 decrements total \$3.9 million (note that we did not recommend reductions in our Public Safety or Fire and Rescue Departments). In addition, historically, the City has factored a three percent vacancy factor (six percent for the Fire and Rescue Department) into all large departments. This year, we applied the three percent vacancy factor to all departments, reducing the General Fund expenditure budget by \$2.3 million. In order to achieve these projected savings, the filling of vacant positions will be carefully managed by Human Resources, Finance and the Executive Management Team.

Staff is continually monitoring the performance of our revenue sources and working with departments to track and manage approved expenditures that are included in the budget. Staff will also closely monitor the local economy, which is particularly cyclical in nature due to our heavy dependence on tourism and consumer spending.

The factor that most impacts the budget on the revenue side is the performance of consolidated and property tax collections. Together, these revenues comprise 73% of the City's fiscal year 2019 General Fund budget. Consolidated Tax is composed of several different types of sales taxes collected throughout the County and distributed to the City based upon the City's 27.6% share of Clark County's population. While Consolidated Tax may grow (or shrink) based upon local sales activity, property tax growth is restricted due to the State of Nevada's cap on property taxes. While we expect to realize growth from new construction, growth on existing property tax collections will be capped at 3% for residential properties and 4.2% for commercial properties for fiscal year 2019.

## Fiscal Year 2019 Final Budget Message Page 2

On a smaller scale, the voters of the State of Nevada recently voted to legalize marijuana for recreational purposes. The State Legislature has adopted legislation surrounding this legalization, and in addition to the licensing fees established by ordinance, cities and counties share in a \$5 million shared pool of money based on the number of dispensaries in each jurisdiction. The City's share is currently projected at \$0.8 million for fiscal year 2019 and licensing fees are budgeted at \$2.4 million. Consequently, total operating revenues are expected to grow by 4.2% in fiscal year 2019 over fiscal year 2018 year-end estimates.

On the expenditure side, the City's General Fund budget is increasing \$24.7 million or 4.3% from fiscal year 2018. Highlights are listed in more detail below, but increases are included in the Council priority areas of public safety with \$3.9 million for the City's public safety program and an additional \$9.3 million for the Metro Police Department, and community services homelessness reduction efforts of \$1.6 million. New programs include the addition of 26 public safety marshals to patrol and protect public spaces such as parks, a mobile integrated health paramedic unit to conduct wellness checks and administer preventive care before our most vulnerable citizens need emergency assistance, and the beginning of the Council's homeless courtyard priority. The courtyard will provide the City's homeless with a safe place to sleep and shower, and connect the homeless population with needed mental and physical health services.

Sound management practices, strong Council leadership and vision, and solid financial management have allowed the City to effectively manage its limited resources. Due to the impacts of the Great Recession, it was critical that we managed the City's budget efficiently and delivered services effectively. We must remain vigilant and continue to manage the budget prudently, implementing adjustments as deemed necessary to maintain strong financial reserves and financial integrity. While the fiscal year 2019 budget is balanced, the City's Five-Year Financial Forecast projects a structural budget deficit. To eliminate that, I am assembling a high-level team that will review all departments for any outdated and/or unnecessary programs or inefficient processes. They will also look for opportunities to consolidate services and eliminate any duplicative software applications with the goal being to eliminate our future structural deficit. I have named this effort Team 2020.

The Las Vegas Valley's unemployment rate decreased slightly to 5.0% in April 2018, down from 5.3% in April 2017. Housing prices remain below boom-era numbers, although the market has improved as compared with the prior year. The median price of homes sold through the Greater Las Vegas Association of Realtors' Multiple Listing Service in April 2018 was \$289,000, which represents an increase of 3.2% from March and 16.1% from April 2017. These increases show the real estate market "heating up", and staff will be monitoring these valuation changes in order to determine if the market is "overheating" and a downward adjustment to revenue is warranted in future budget cycles.

Tourism continues to be a major driver of the economy. Approximately 42.2 million visitors came to Las Vegas in calendar year 2017, a slight decrease of 1.7% from the prior year. The meetings and convention industry delegate count increased 5.3% with 6.6 million visitors in 2017. The average Citywide hotel/motel occupancy rate decreased slightly by 0.4%, coming in at 88.7% for 2017. This occupancy rate is nearly 23% higher than the national average of 65.9%. The average daily room rate increased just over \$3 to \$129 in 2017. Gross gaming revenue in Nevada increased 2.8% to \$11.6 billion. Downtown Las Vegas' gross gaming revenues were up 11.8%, while the Las Vegas Strip's revenues increased 1.3% during 2017.

With our projected results in the General Fund for fiscal year 2018, we will finish the year with revenues in excess of expenditures. Even though we started the year with a balanced budget, we are projecting to finish the year with a \$5.0 million positive position. This year-end surplus is primarily due to conservative budgeting and careful financial management throughout the fiscal year.

#### Preparing the Budget and Setting Priorities

The City's budget ultimately serves as a roadmap for departments to deliver service to our residents and businesses. As such, there is much public process surrounding the Council priorities that drive spending allocations. The City employs a diverse public outreach effort, including conducting long-range planning processes such as the 2016 Master Plan in open session and welcoming public comment. In addition to Council and staff open door policies, since 2010, the City has been conducting an annual survey of households regarding their experiences living in the City of Las Vegas. The City has received higher than average scores in most categories but lower than the average scores in areas such as safety in parks and quality of local public schools. While the City does not have control over the Clark County School District, the City Council made youth development a priority during the fiscal year 2017 budget process, creating a new Youth Development and Social Innovation Department.

Based on Council direction, the fiscal year 2019 budget priority is public safety, particularly safety in parks and public spaces and reducing homelessness. Below is the budget process life cycle.

The 2017 survey was conducted in November and December 2017 with the results being reported to the public in February 2018. During the same time, the City Council and staff set annual priorities and a three-year strategic plan. The City Council and staff meet during the months of December and January in order to discuss the City's strategic direction. The 2017-2018 sessions resulted in the following themes and priorities:

Iconic Las Vegas: Create iconic spaces for residents, visitors and businesses

Workforce Development: Prepare our workforce for the future

Smart Vegas: Become the city of choice to develop Smart City applications

At-Risk Populations: Develop strategic partnerships to address critical issues among at-risk populations

**Neighborhood Preservation/Quality of Life:** Provide responsive services, revitalize and program strategically in neighborhoods, and preserve parks, recreation and open space

Public Safety: Become the safest, high-profile city in America

#### Current Year Highlights and How We Implement Council Goals

Las Vegas is an iconic destination City. One of our key priorities continues to be the growth and development of the urban core. This encompasses many areas including technology, education, public safety, transportation, improved infrastructure, and bringing in new business. In 2016, the City completed its most recent Downtown Master Plan. The Master Plan calls for more green spaces and parks downtown that fit in with our existing development. In addition, we recognize the need for more housing downtown. The Downtown Master Plan estimates adding 5,500 housing units in the urban core over the next 25+ years. The Fremont 9 Project is well underway, and the City is proud to be working with developers on two multi-family projects in Symphony Park. Each will provide approximately 300 residential units and a combined total of 26,000 square feet of retail space. Construction is scheduled to begin during the first quarter of 2019. In addition, the City will begin construction on two multilevel parking garages in Symphony Park this summer. These projects are just the beginning of our vision for downtown.

In support of revitalization, in November 2016, the City was awarded \$55 million in New Markets Tax Credits from the U.S. Treasury Department. These tax credits are to be used to invest in low-income and underserved communities. The City had great success with \$28 million received in 2014, which was used for projects such as the Mob Museum, Blind Center, Historic Westside School renovation and new Supreme Court Building. These projects are bright spots in the City's downtown, and would likely not have been possible without the financial assistance of the New Markets Tax Credit program.

## Fiscal Year 2019 Final Budget Message Page 4

The City is quickly becoming a destination for professional sports teams. We recently welcomed the professional soccer team Las Vegas Lights who have begun playing at the City's Cashman Field near downtown. In addition, the NFL's Raiders have broken ground on a new stadium near the Las Vegas Strip; the Women's NBA team Las Vegas Aces began playing this spring; and the new expansion hockey team, the Vegas Golden Knights, recently completed a very successful first season. The City will also host two NASCAR races this year. This new economic activity is very exciting as the City is diversifying its economy and attracting new visitors and businesses alike.

During the summer of 2017, the UNLV School of Medicine accepted its first charter class. The medical industry is key to Southern Nevada's economic diversification strategy, and the Medical District will help attract new high-paying employers to the region. Most recently, the City has partnered with the National Health and Nutrition Examination Survey to conduct an annual health survey of Clark County residents. This comprehensive survey will test a cross-section of Las Vegas residents to obtain data on our community's overall health and give guidance on types of services needed in the district.

In addition to being a leader when it comes to transparency and supplying information to residents, the City has undertaken a new performance management initiative using data to drive results. Results Vegas enables us to use data to improve services, make informed decisions, and engage the community. Each City department has set outcome-oriented goals that are aligned to one of the four citywide priorities: growing economy, neighborhood livability, community risk reduction, and high-performing government. To make it easy for the public to access this information, all of the data, including performance indicators, charts and maps, are available on the City's website.

The City's budget reflects the ongoing emphasis on what is important to our citizens and to Council by continuing investment in our City. This year's General Fund budget represents a revenue growth rate of 4.5% compared to the 2018 fiscal year budget, and a 4.2% growth rate compared to the fiscal year 2018 year-end estimate. On the expenditure side, the fiscal year 2019 budget is expected to grow 4.5% compared to fiscal year 2018 budget and 5.2% compared to the fiscal year 2018 year-end estimate. The difference in expenditure growth rate compared to the estimate is due largely to fiscal year 2018 vacancy savings and budgetary underspending. The City's budget includes modest program expansion, restorations and sustainable service levels, including:

- Public Safety in our fire services and park security
- Initiatives to reduce homelessness in the City
- Investment technology solutions
- Maintaining City facilities and assets
- Adding resources in critical service areas with the addition of 56 new and restored full-time equivalent positions with
   28 in public safety and 28 in the non-public safety functional areas

The 2017 Citizen Survey has emphasized a need for increased public safety. We continue to work with Clark County and the Metropolitan Police Department (Metro) on acceptable funding levels for our police service. The City's contribution represents a \$9.3 million increase or 6.6% over fiscal year 2018. This includes contributions of \$6.8 million in Metro's fund balance to minimize the impact of increases to the City and Clark County. This budget contemplates the addition of 13 new police officers and 23 new civilian support positions in addition to \$5.1 million in special events overtime funding, furniture and fixtures, and minor capital improvements. We will continue to monitor this budget carefully and the effects it has on the City's financial condition.

The budget represents the application of City policies, especially its fiscal and budget policies. The policies provide guidance in sustaining the fiscal integrity and viability of the City. As a management tool, the budget outlines operating programs and related activities, equipment, and facilities necessary to conduct those programs. The budget represents our financial plan, so residents and other stakeholders can be informed of the City's fiscal condition and its focus for the upcoming year.

## **Budget Highlights**

This budget anticipates General Fund revenue in fiscal year 2019 to increase by 4.2% compared to fiscal year 2018 year-end estimates, including transfers. Consolidated Tax, 55% of the fiscal year 2019 revenue, represents the sales, cigarette, liquor, and motor vehicle privilege tax revenues collected by the State of Nevada and distributed to counties and cities based on a five-

## Fiscal Year 2019 Final Budget Message Page 5

year backward averaging formula that considers assessed valuation and population. Current trend of this revenue source shows moderate growth and we are projecting a 4.7% increase over fiscal year 2018 estimates.

It is notable that in March 2018, the City received notice that electricity supplier NV Energy will be reducing rates by three percent on April 1 of this year. The City currently collects \$26.0 million in franchise fees from NV Energy, and has adjusted the fiscal year 2019 budget to \$25.2 million, a decline of \$0.8 million. While this negatively impacts the City's budget, it will not cause a structural imbalance as staff was able to increase other revenue estimates as better information became available. For example, the State of Nevada just released its final revenue estimates, and the City had been conservative on property tax. This and other smaller sources filled that gap for fiscal year 2019.

Quality of life considerations are significant in the large portion of the City's budget that goes toward the area of public safety and health. This budget includes two new paramedics to begin a mobile integrated health unit. This new unit will conduct wellness checks throughout the community in order to assist the City's most at-risk population. The intent is to keep people in their homes and help them before their conditions require a visit to the emergency room. The Fire Department is working very hard to promote community health while containing or even reducing its call volume in order to maintain staffing levels and equipment condition.

The City Council places a high priority on reducing homelessness. To that end, the City's Final Budget includes an additional \$1.6 million in increased spending authority to address identifying and assisting this vulnerable population. The funding will provide for six new employees to act as liaisons between the City and social services agencies to ensure proper services are rendered to the homeless, coordinate the efforts at the new courtyard, outreach to identify the homeless and assess needs in addition to strategizing how to most effectively use tax dollars allocated to the project. The funding also includes \$500,000 for security in the courtyard, \$100,000 for portable toilets, and \$400,000 for two more Multidisciplinary Outreach Referral Education (M.O.R.E.) teams. These teams operate in the field, and are instrumental in identifying vulnerable people and getting them much needed services. We believe that we can successfully reduce homelessness by employing this multi-faceted approach to combating this widespread problem.

### **Fiscal and Budget Policies**

The needs generated from ongoing programs, and those expanded through the strategic planning process are developed subject to the City's adopted fiscal and budget policies. Fiscal policies are strategies employed to provide the City with long-term guidance in the wise and prudent management of its resources. These policies tend to focus on common precepts and practices that are synonymous with good fiscal management. Budget policies are usually more immediate in nature and are considered "in addition to" fiscal policies. They typically provide guidance more specific to the current economic condition of the City.

Budgets are reflected at full-expected cost. The financial shortfall forecast has made it necessary to take more stringent action regarding the management of vacant positions. All vacant positions are evaluated by the appropriate Chief or Deputy City Manager prior to being filled based on the overall need and performance of the department.

Some of the more significant budget policies include the following:

#### Budgets

- Budgets will be developed based on historical trending adjusted for specific needs.
- Appropriations for ongoing expenditures will not exceed ongoing revenues.
- Budgets will be reflected at full-expected cost of personnel costs.
- Budget evaluations will consider current and subsequent year impact.
- New programs will be funded (1) from fees, (2) from efficiencies, (3) from general revenues.
- Opportunities will be sought to improve performance through technology.

## Positions and personnel

- Vacant positions shall be evaluated and re-justified.
- All positions will be funded at a discount taking into consideration any vacancy trends.
- Savings from vacancies will be used to fund one-time costs or replenish fund balance.

#### Capital

- Interest earnings from selected funds shall be dedicated to one-time capital needs.
- Bonds will only be considered for capital needs where (a) there is a valid 5-year capital improvement plan (CIP) and (b) it is determined that the City can absorb the operating costs of the new facility in its operating budget.
- Major capital acquisitions will be identified and listed in the CIP for the next five years and will project annual operating cost to be funded from the General Fund in future years.

#### Revenues

- Barring extraordinary events, the City shall self-impose a property tax limit based on the fiscal year 1999 variance between the actual tax levied and the maximum allowed levy; that is, the City will not raise taxes beyond a self-imposed limit that is 11.2 cents per \$100 below the allowable State imposed limit.
- One-time revenues will only be used for one-time expenses.
- Fees and charges will be increased, where appropriate, to reflect increased cost in operations, including inflation and increased mandates.
- Public/public or public/private partnerships will be sought to enhance funding.

#### Fund balance and reserves

- The General Fund ending fund balance should equal at least 12% of operating revenues with an aspirational goal of 20%.
- The ending cash balances for Internal Services Funds should equal 10% of the prior year's expenditures for operations and 25% for capital acquisitions.
- The ending cash balance for the Employee Benefits Internal Services Fund shall be maintained at no less than 20% of prior year expenditures.
- Excess revenues over expenditures may be programmed only after considering:
  - Adequacy of General Fund reserve levels
  - Unfunded long-term liabilities
  - Capital priorities that lack sufficient dedicated funding sources, and
  - Operational expenditures such as employee compensation, benefits, infrastructure maintenance and new programs may be considered only if excess is sustainable

#### General Fund

The expenditure budget for the General Fund amounts to \$573.7 million, including transfers. This is a 5.2% increase from fiscal year 2018 year-end estimates and a 4.5% increase from the final budget for fiscal year 2018.

We forecast revenues and transfers of \$573.7 million in the General Fund. Overall, budgeted revenues, including transfers in, will increase by 4.2% in fiscal year 2019 from fiscal year 2018 year-end estimates. We project a 4.7% increase in taxes represented in the Consolidated Tax formula (SB254) compared to the fiscal year 2018 estimate, which represents 55% of our revenue base. Property Tax collections (18% of our revenue base including the transfer in of the Fire Safety Initiative Property Tax) are projected to increase by 5.5% (including new growth). Licenses and Franchise fees are projected to increase 2.8% and our other revenue sources are projected to increase by 2.8% due to growth in reimbursable expenditures income and emergency medical response revenues.

# **Special Revenue Funds**

These funds account for monies received from specific revenue sources that limit their use to specified purposes. Intergovernmental sources such as grants, reimbursements, and contributions account for 70.7% of the revenues funding these programs. Appropriations in the Special Revenue Funds category total \$117.6 million. Of this amount, approximately \$4.2 million is committed to Capital Projects Funds. Housing and Urban Development grants, approximately 13.5% of appropriations in this fund category, are allocated to targeted neighborhoods according to the City's Neighborhood Improvement Plan.

#### Capital Projects Fund

The budget, including transfers out, appropriates \$389.2 million for a variety of capital projects, most of which involve improvements to infrastructure. The major capital budgets for fiscal year 2019 include the following:

Public Works	\$ 205.3 million
Culture and Recreation	56.1 million
Public Safety	41.1 million
Economic Development	48.9 million
General Government	37.8 million

Funding for these projects comes largely from dedicated or specified revenue sources, or represents carry forward balances from construction in progress. The City recently issued bonds totaling \$22.2 million, \$12.1 of which is payable from the Fire Safety Initiative Property Tax levy for the replacement of Fire Station 3 and \$10.1 million will be used to construct a homeless courtyard. In addition, the City issued \$21.6 million for the revitalization of the Fremont Street Experience canopy project. Fremont Street Experience will reimburse \$11.8 million with the balance being funded by the City's Redevelopment Agency.

## **Enterprise Funds**

The City operates four Enterprise Funds that are designed to account for business-like ventures such as Sanitation, Building & Safety, Municipal Parking, and the Municipal Golf Course Enterprise Funds. Enterprise-type programs reflect total operating expenses of \$132.1 million. The majority (71.5%) is committed to operations at the Water Pollution Control Facility (WPCF), street cleaning, and sewer line and storm drain maintenance. Capital outlay is budgeted at \$80.2 million including plans for three parking garages (referenced in the Capital Improvements Plan) to be built in fiscal year 2019.

#### Other Funds

Internal Service Funds total \$269.5 million in operating expenses. Included in this category are the intergovernmental shared expenses for fire communications, graphic arts operations, the replacement/addition of radio/pager/cellular phone equipment, and equipment/support for personal computers. The City's self-insurance (workers compensation, liability and property damage insurance) and employee benefit programs are reported in this fund group.

Debt Service Funds total \$56.3 million in debt service, of which \$17.9 million is funded through General Fund revenues.

#### **Process**

We are submitting this budget in accordance with the laws of the State of Nevada.

I want to express my appreciation to the City Council, all City departments, and to the Director and staff of the Finance Department for their efforts in preparing this budget.

The City's management team, "Team Las Vegas," continues to be committed to improving customer service, improving the efficiency of City operations, and improving the quality of City services. We will continue to be financially conservative in the execution of this budget as we strive to meet the Council's priorities. We will also stay in tune with the economy and our citizens to ensure we are meeting community needs. I believe this budget advocates this philosophy along with the strategic direction from the City Council, and creates a sound expenditure plan for this next year.

Sincerely

Scott D. Adams City Manager
