

CITY OF LAS VEGAS

INVESTMENT REPORT

THIRD QUARTER FY2017

MARCH 31, 2017

INVESTMENT STRATEGY

The City's three principal objectives in managing the investments are to provide safety, to ensure liquidity, and to generate a market rate of return on the investments. Using cash flow projections to match assets with liabilities ensures prudent investment principles, which will enable the City to soundly meet its financial obligations.

The City's Investment Pool has been segregated into four separate investment portfolios. Of the portfolios, approximately 22% is managed internally by the Treasurer's office, 78% is being managed by external investment managers. The internally managed funds are used for current operations and primarily invest in the short-term segment of the market—overnight to one year. The external investment managers target the longer-term segment—generally one year to five years.

Investment Pool — Cash Management Fund: This portfolio is managed internally by the Treasurer's office and targets maturities from overnight to 1 year. The primary focus of this portfolio is to provide the day-to-day liquidity to meet the operating needs of the City. The majority of investments are purchased and held to maturity. The most frequently used investment types are money market funds, commercial papers and federal agency notes. The benchmark used to monitor the performance of this portfolio is a customized index which approximates the averaged weighted maturity of the portfolio.

Investment Pool — Non-Operating Funds: Two external managers, FTN Main Street Advisors and Wells Capital Management each manage approximately \$100 million of the Investment Pool. The external managers target maturities from 1 year to 5 years and are limited to using only U.S. Treasury securities, federal agency notes, corporate notes, certificates of deposit, and money market funds. The portfolios were funded on October 4, 2005 and the performances are benchmarked against the Bank of America Merrill Lynch 1-5 Year Treasury and Agency Index. Another external manager, Buckhead Capital Management, manages approximately \$65 million of the Investment Pool. This segment of the Investment Pool is invested primarily in AAA-rated federal agency mortgage-backed securities and AAA-rated asset-backed securities. The performance of this portfolio is benchmarked against the Bank of America Merrill Lynch 1-3 Year Treasury index.

Non-Investment Pool — For the non-pooled investments such as bond issue proceeds, including such issues as the Redevelopment Projects and Special Improvement Districts, the City keeps these funds' investment maturities typically less than one year. These funds are invested in short-term securities such as Money Market Funds and Federal Agency Discount Notes. Monies that are required by state statute, city ordinance, and bond covenants to be held separately (i.e. Employee Benefits Fund, Self Insurance Liability, and bond reserves) are not part of the investment pool. Cemetery investments are managed by Carriage Services.

INTEREST INCOME – INVESTMENT POOL PORTFOLIO

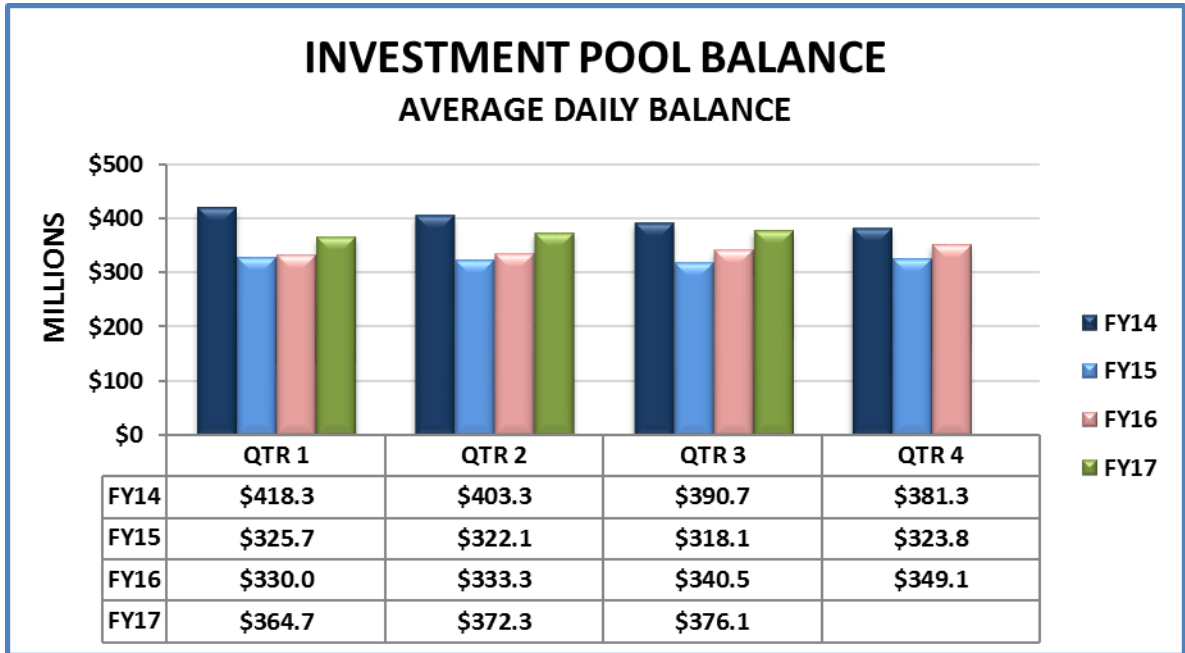

The Investment Pool produced \$753,000 of interest income for third quarter of fiscal year 2017; this was a decrease of \$350,000 compared to same quarter in fiscal year 2016. The City’s effective annual rate of return for the Investment Pool for the third quarter of fiscal year 2017 was 1.20% compared to 1.23% for the same period of the previous fiscal year.

INVESTMENT BALANCES – INVESTMENT POOL PORTFOLIO

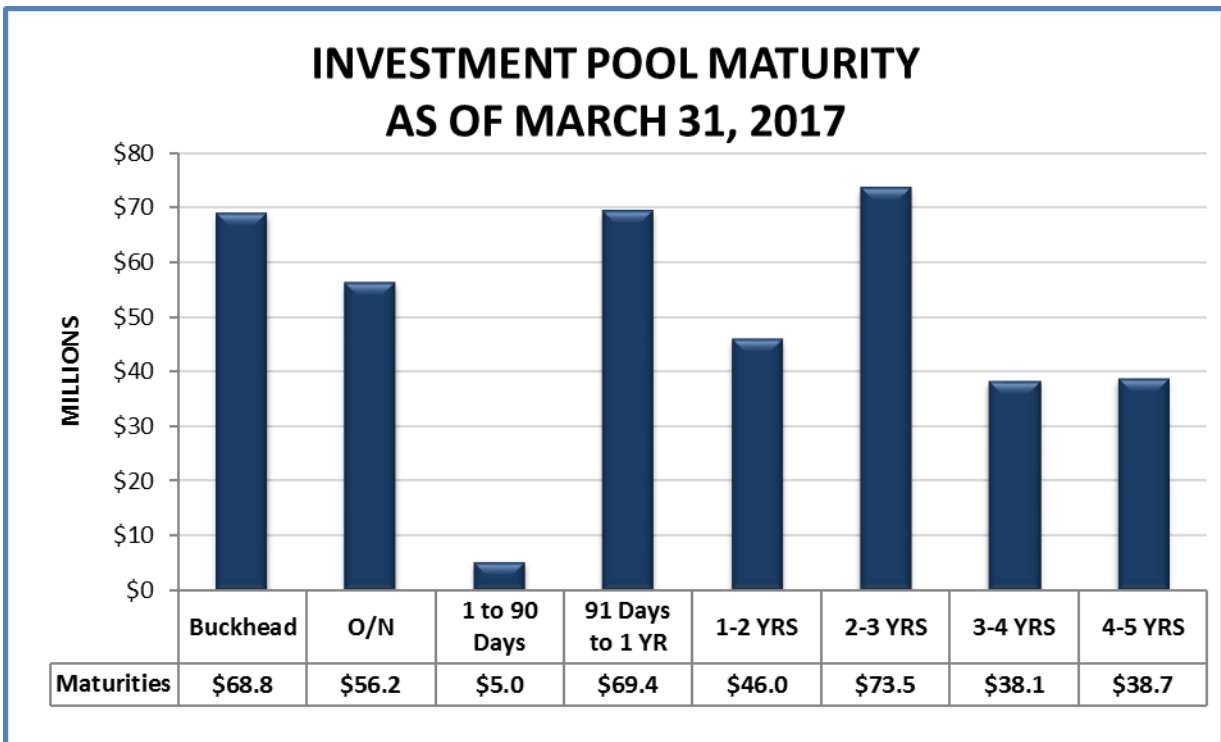

The average daily balance of the Investment Pool for fiscal year-to-date 2017 increased approximately \$36 million compared to the same period of the previous fiscal year. This increase was due to cash inflows exceeding cash outflows during the year.

INVESTMENT MATURITY – INVESTMENT POOL PORTFOLIO

The Investment Pool had an overall average weighted maturity of approximately 1.53 years and a modified duration of 1.47 years. The Cash Management portfolio and cash in the bank are used to meet the City’s cash flow operating needs.

MARK-TO-MARKET INFORMATION – INVESTMENT POOL PORTFOLIO

The Governmental Accounting Standards Board (GASB) Statement 31 requires governmental entities to report certain investments at “fair” or market value for annual financial reporting purposes. Fair value is defined as the amount at which a financial instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The Treasurer’s Office monitors the market value change on a monthly basis and reports the annual change in the City’s Comprehensive Annual Financial Report.
