Monitoring System — [Takeover of account/New install]

[MONITORING COMPANY] is requesting a central station permit for the above referenced property. The monitoring service will be provided by [MONITORING COMPANY] which is a UL listed (UUFX) monitoring center. The system being monitored is a [FCI 7100 addressable system]. The signals will be transmitted via the [DSC GS3055-ICF Fire Radio].

Water Flow, if provided with a fire sprinkler system

Fire Alarm, if provided with a fire alarm system

Trouble Signal

Supervisory, when applicable Signals will be monitored by:

[MONITORING COMPANY] CS 100123-123

2425 Any street Ave

Any town, Desert 99123

800-555-1234 Office

800-555-1235 Fax

In accordance with CLV Ordinance 6821 , [MONITORING COMPANY] will promptly forward only sprinkler water flow signals to the Las Vegas Fire & Rescue at 1-702-382-3000. [IFC§ 907.6.6]

The supervising station shall also retransmit fire alarm signals for government buildings, (all facilities owned, leased and/or operated by any City, County, State, or Federal government agency) schools (including daycares, preschools, public and private schools etc.) and hospitals (including nursing homes, convalescent homes, adult care facilities, group homes, extended care facilities, etc.).

This may also include but is not limited to other facilities as deemed necessary by the Fire Code Official

[CONTRACTOR] will provide runner service for the monitoring of the fire alarm and sprinkler systems. All work will be performed in compliance with the State of Nevada and City of Las Vegas requirements.

Regards,
