

LAS VEGAS FIRE & RESCUE

Request for Alternative Materials, Design and Methods of Construction and Equipment

The items listed are basic information only. Please refer to adopted codes for specific details. Codes are subject to change. Additional requirements may apply.

Note: Approval of this AMMR is not a permit: you will need to submit a permit for work that has to be performed. Also, include the approved AMMR when submitting a new permit application.

IFC § 104.2.3 The *fire code official* is authorized to approve an alternative material, design, or method of construction where the *fire code official* finds that the proposed design is satisfactory and complies with the intent of the provisions of the code, and that the material, method, or work offered is, for the purpose intended, at least the equivalent of that prescribed in this code in quality, strength, effectiveness, *fire resistance*, durability, and safety.
