

Curb Ramp Data Layer

- Curb ramp was recently built and should be usable by most, if not all, people with disabilities.
- Curb ramp is old and does not meet our current construction standards. If you use this ramp, please do so carefully.
- Indicates the sidewalk corner does not have a curb ramp. In planning a travel route, that corner should not be included.

This map uses the best information we have available at this time. If you find a corner that should be labeled differently, we are eager to hear from you. Please phone (702) 299-5055 - Relay 7-1-1, and let us know what you have found.

To request that a new curb be constructed, or other issue with existing curb ramps, please phone the Streets & Sanitation Division at (702) 229-6227/Relay 7-1-1. We prioritize curb ramp construction according to the needs of pedestrian users and based on available resources.

GIS maps are normally produced only to meet the needs of the City. Due to continuous development activity this map is for reference only.
