

Attention all Marijuana related businesses:

The City of Las Vegas (“Las Vegas”), the Las Vegas Metropolitan Police Department (“LVMPD”), the Unincorporated Clark County (“Clark County”), and the Nevada Transportation Authority (“NTA”) have combined efforts to ensure compliance with all rules and regulations pertaining to marijuana including public consumption.

**We write to remind you that public consumption of marijuana is unlawful.** The only place in which it is legal to consume marijuana is at a private residence for private use. It is unlawful to advertise and invite the public to consume marijuana at parties, dining events, recreational events such as yoga, swimming, dining, painting, and other types of events, even if events are held in a private residence.

Further, it is unlawful to consume marijuana on tour buses, limousines, and other common carriers.

Las Vegas, LVMPD, Clark County, and NTA will issue violations to individuals illegally consuming marijuana and any individual or entity allowing the illegal consumption of marijuana. In addition, licensed marijuana businesses found to be affiliating or sponsoring a non-licensed marijuana business or event, and/or a business that promotes public consumption risks the suspension or revocation of their business license.
