Cultural History Fair

Grant	\$4,000
Organization	Nevada Archaeological Association
Year	2007
	<p>A \$4,000 grant from the Centennial Commission was awarded to the Nevada Archaeological Association for the costs associated with the production of the 2007 Cultural History Fair.</p> <p>The fair was an annual event that provided a venue for several non-profit archaeology, historic preservation and resource conservation organizations to host booths with educational materials and displays. These displays provided information about the organizations' missions, what they do to preserve archaeological, historic and environmental resources, what the community can do to assist the organization, and general information about archaeological and historic resources in the Las Vegas area.</p> <p>https://nvarch.org/</p>
